Residential Floors (2-5)

Lassonde Studios has four residential floors above the first floor, which is called the Neeleman Hangar and is open to all students on campus. The residential floors all have the same floor plan with the exception of the balcony. Only the second floor has a balcony, as shown in the image below.

Single ~119 sq. ft.

Double ~170 sq. ft.

Above are sample layouts of the single and double rooms. Each resident is provided a bed, wardrobe, dresser and desk inside the room. Single and double rooms are clustered into communities, and residents in those areas share a living area and bathrooms. At left is the shared living area.

Pod ~70 sq. ft.

Each pod includes a full bed, TV, dresser and wardrobe. Each resident also receives a separate storage locker outside of the pod.

The pods are clustered into communities of 18 pods. Residents in these areas share a community kitchen, three living areas and bathrooms. The pods are private sleeping areas that measure 7x10 feet.

Themed Floors

Pictured is the Games & Digital Media floor, one of four themed floors at Lassonde Studios.

Each of the four residential floors have a different theme with matching design, tools, equipment and activities. The themes apply to the community areas on each floor, not the private spaces. All residents can use the themed spaces on any floor and participate in all activities.

Sustainability & Global Impact (2nd floor)

Be a part of the solution on the Sustainability & Global Impact floor. Meet other students who have a passion for a better world.

Products, Design & Arts (3rd floor)

Have a product idea? Interested in design & arts? This floor is for you. Dream about your idea, then get up, and use state-of-the-art tools to make it a reality.

Adventure & Gear (4th floor)

Utah has amazing spaces for outdoor adventures. Get the most out of it by surrounding yourself with the right tools and people who love adventure as much as you.

Games & Digital Media (5th floor)

The Games & Digital Media floor is for those who love all things digital. We'll have plenty of extra TVs and comfy chairs for you to test your creations (or just have fun).
